

# **A Level Science Summer Tasks**

**If you have applied to do one of the Science subjects at A Level, you are required as your summer task to complete a past paper for each of the science subjects you have applied for.**

**The papers are all paper one's which include a lot of cross over from your GCSE.**

**We do not expect you to get 100% on this paper or even to be able to answer every question. There is NO time restriction on completing the papers and you are allowed to research your answers.**

**The purpose of this exercise is not for us to assess your subject knowledge but to assess your research skills, independence and tenacity.**

**You will be given two grades for the completed paper, a content grade and an effort grade, it is the effort grade that is the most.**

**We are aware that the Mark Schemes to these papers are accessible online but ask that you refrain from using these in any capacity. To reiterate this activity is not about subject knowledge but about resourcefulness and resilience.**

**Any problems please contact Mrs H Person,  
[HPearson@hartonacademy.co.uk](mailto:HPearson@hartonacademy.co.uk).**
